

SUSQUEHANNA TOWNSHIP HIGH SCHOOL ALUMNI ASSOCIATION

An IRS 501(c)(3) charitable organization

EIN: 46-2979340

“Building Champions” Field House Capital Campaign

Please join us in building a new High School field house at Roscoe Warner Field. It is our goal to build the new facility worthy of our athletes effort and reflective of our community.

The Susquehanna Township Alumni Association has partnered with the Susquehanna Township School District, School Board of Directors, and Booster Clubs in this much need endeavor.

Contributing to the “Building Champions” campaign will allow the Alumni Association and its partners to raise private funds. All donors will receive a receipt and be recognized as a Supporter.

The initial funds raised will be used to cover Architectural and Engineering services.

Sponsorship opportunities will also be available.

Like to serve on the campaign committee or have any questions? Please contact either:

Dwayne DeFoor (717)236-3557

John Fabian (717) 730-1842

or

We want our school district to be a major hub of Susquehanna Township. A new field house would be the shiny cap that crowns that hub.

- Dr. Tod F. Kline, Superintendent of Schools

The vision for this project is a passionate area for coaches, faculty and all people affiliated with Susquehanna Township High School. We just do not want to miss an opportunity to fix something that has the potential to help the entire township.

- Joseph C. Headen Sr, Head Football Coach

A world-class school district needs world-class facilities. A new field house with more modern and accessible restrooms is long overdue and will be a giant step forward compared to the concrete shed that is there now.

- Pat Bricker, School District Parent and Resident

A multipurpose training facility that can be used for a variety of athletes and activities; speed and power training; areas to flip tires, run weighted speed sleds, or uses power bands, etc... that all teams can use in some way to improve their athletes. Many of our district teams pay to use other facilities to train. If we were to pool together we could save money and do similar activities in house. A larger concession stand area that can be used by multiple Booster clubs.

- Ross W. Webb, Varsity Baseball Coach & HS Physics Teacher

We need a new field house that will serve our current and future programs and students, will include concessions space, locker and restroom space, athletic storage and will bring the Roscoe Warner Field complex in-line with our District vision of being “World Class” and will be a source of pride for generations of Hanna faithful for years to come.

- Scott Udit, Past Director of Operations & Maintenance
